City Directory

INTRODUCTION.

In presenting a new City Directory to the Citizens of Sacramento, the publisher deems it but due to himself to say, that he has spared neither time, labor, nor expense, in order to render his work entirely correct. In securing this result he believes he has been successful. Errors and omissions however may have occurred in spite of all his precautions; but those who discover them, will, if they have the slightest appreciation of the difficulties attending a work of this character, readily make all due allowances, and absolve the publisher from censure.

The population of California is the most migratory, perhaps, in the world. The man who last week was a citizen of Sacramento, may this week be a resident of Marysville, and next week enroll himself among the denizens of Oroville or Shasta. There is, too, a constant and rapid increase of the population, from the influx of immigrants, to say nothing of the progressively significant contributions to the mass by the virtuous and patriotic wives and mothers of the State. This continual change of location, and this continual influx and accumulation, make the labor of him who undertakes the compilation of a Directory, one of no ordinary difficulty. The publisher flatters himself, however, that his work is as perfect as under the circumstances it was possible to make it. The City has been thoroughly and minutely canvassed, and every name, where it could be obtained, has been placed in its proper alphabetical position in this volume. As to the Historical and Statistical portions of the book, the publisher assures the public that he derived all his facts from authorities whose truth and accuracy are not to be questioned.

Since the publication of the Directory of last year, by Mr. Colville, the City has gone forward in the march of improvement with a steady but rapid pace. Substantial and elegant structures, which would do honor to the cities of the Atlantic coast, have loomed up in rich profusion within a twelvemonth; mammoth hotels, capacious storehouses, and splendid palatial residences, now tower above the spots which but a brief while since bore the humble tents and huts of the toil-worn but hopeful immigrant. In every street, and in every lane and alley, daily appear the evidences of a firm, rapid and healthy progressiveness, prophetic of a future greatness far beyond the wildest hopes of the City's founders. When it is remembered that five years have not elapsed since Sacramento was swept from the

earth by fire, and the yet smoking ruins immediately buried beneath the waters of a long-continued and destructive flood, her present magnitude and affluence seem more like the creations of magic than the sober and practical realizations of human effort. The best proof of the industry, the energy, the enterprise and liberality of the Sacramentans, is presented in the wealth and magnificence of their City, built up by them in such brief time, and in defiance of such stubborn and disheartening obstacles.

The days of devastating conflagrations and floods, it is fondly hoped, have gone by. Not the least among the merits of the solid edifices of Sacramento, is that careful architectural arrangement which renders them secure against the outside attacks of the destroying element; and the most important and populous portion of the City is defended by a work of circumvolution, capable of successfully resisting the mightiest invasions of the angry waters. Those Sacramentans who saw and felt the disasters of 1852 and 1853, can now repose in the beautiful and substantial residences, with no fears of fire or flood to mar their slumbers.

Although Sacramento is the permanently constituted Capital of the State, and necessarily derives much importance from that circumstance, it is, nevertheless, a fact, that that advantage, great as it may seem, is but secondary to the extensiveness and opulence of her commerce, which she owes to her peculiarly favorable location. She stands just where the second City, in commercial importance, must stand in California.

A resistless geographical and social necessity makes her a great centre of trade, and will continue to sustain her as such. No probable contingency, no adventitious state of things in the future, can strip her of this high prerogative. While with one hand she wields the baton of legislation, with the other she controls the car of commerce. While her citizens remain intelligent and virtuous, she must continue to grow in wealth and grandeur, unchecked by rivalry and unawed by malevolence.

With this brief and unpretending preface, the publisher respectfully submits his work to the citizens of Sacramento, in the confident hope that it will meet with their favor and patronage.

Before closing these remarks, we beg leave to acknowledge our indebtedness to several friends for their contributions. To the gentlemanly School Commissioner and Secretary of the Board of Education, Dr. G. L. Simmons, for valuable School Statistics, to Chas. D. Hossack, Esq., Secretary of Fire Department, and to other friends, we return many thanks for the courtesies shown us.

STATISTICAL AND HISTORICAL REVIEWS.

In proceeding with our brief history of Sacramento's Institutions, our attention is first called to the present condition of the

PUBLIC SCHOOLS.

Among the commendable institutions of Sacramento, there are none which exceed in importance those through whose agency nearly a thousand children are taught the different branches of an English education.

Although the embarrassed financial condition of the City has prevented the introduction of some important improvements into our school system, we are justified in pointing to it with pride, and warranted in asserting that rapid progress has been made in accomplishing the great purposes of Free Public Instruction. The defects disclosed by the experience of the past can be easily remedied; and the difficulties which resulted from the heterogeneous character of the pupils are fast disappearing before the energies of an accomplished corps of teachers. In comparison with sister cities of California, our educational policy fully equals, if it does not excel, all others; and it is the duty of every good citizen to foster and improve it, to enhance its glory, so that our youth may grow up to a noble maturity, and become vigorous and intellectual representatives of our City and State.

In April, 1853, the Legislature of California passed an act authorizing the establishment of Public Schools, and in February, 1854, the first Free Schools in Sacramento were commenced on the corner of K and Fifth streets. The County Board of Education consisted at this time of H. J. Bidleman, County Assessor, *ex-officio* County Superintendent of Public Schools; H. W. Harkness, J. G. Phelan and Geo. Wiggins, Commissioners, under whose control the Schools were successfully conducted. In October, 1854, the Common Council of this City passed an Ordinance for the Government and Establishment of Free Common Schools, and elected a Board of Education, as follows:—Superintendent, H. W. Harkness; School Commissioners, N. A. H. Ball, T. A. Thomas and George Wiggins. The first Common School-house erected in Sacramento was placed on land tendered by J. H. Gass, Esq., corner of Tenth and K streets, and was dedicated in January, 1855. In March, 1855, the mode of electing a Board of Education was changed by the Legislature; the power being taken from the Common Council and placed in the hands of the people, who were required to elect a Superintendent and six Commissioners (two from each Ward) on the first Monday in April of each year.

The public schools of Sacramento are free to all children who reside within the city, under the age of eighteen and over the age of four years. They are divided into Primary, Grammar, and High Departments. The requirements for admission into the Grammar Schools are—that the candidate shall be able to read at first sight easy prose—to spell common words of one, two, or three syllables—to have a general idea of the use of the several punctuation marks—to perform

City Directory

mentally, simple questions in Arithmetic—and to answer readily to any proposed combination of the multiplication table in which neither factor exceeds ten. The qualifications for admission to the High School, are as follows: Each candidate shall be required to present, when called for by the examining committee, a certificate of good moral character, from his or her last instructor, and shall pass a satisfactory examination in Spelling, Reading, Writing, English Grammar, Arithmetic, and Modern Geography. Examinations for admission to the High School are held only at the commencement of each term, and for the Grammar Schools whenever applications are made to the Board of Education. The following rules are among those adopted by the present Board of Education:

RULE 1.—There shall be Three Terms during the year. The First shall begin the FIRST Monday after the FIRST day of January, and end the Friday before the FIRST day of May. The Second shall begin in the THIRD Monday after the close of the First, and end the SECOND Friday in August (14th day of August.) The Third shall begin the FOURTH Monday after the close of the Second, (7th day of September,) and end the Friday before Christmas. There shall be three vacations—the first, two weeks; the second, three weeks; and the third, two weeks.

RULE 2.—During the First and Third Terms, said Schools shall commence at 9 o'clock, A. M., and close at 4 o'clock, P. M. The first recess of fifteen minutes shall be given at half-past 10 o'clock, A. M., and the second of forty-five minutes, at 12 o'clock, M. During the Second Term, said Schools shall commence at 8 o'clock, A. M., and close at 3 o'clock, P. M. The first recess of fifteen minutes shall be given at 10 o'clock, A. M., and the second of forty-five minutes at 12 o'clock, M.

RULE 3.—No Teacher shall receive a pupil into his or her School, without the written permission of the Superintendent or Secretary of the Board.

RULE 11.—The Text Books shall be as follows—to wit: In the Primary Schools, Sargent's Standard First, Second and Third Readers; Sargent's six Primary School Charts; Sargent's Speller; Cornell's Primary Geography; Thompson's and Colburn's Mental Arithmetic. In the Grammar Schools, Sargent's Speller; Sargent's Third and Fourth Readers; Cornell's Intermediate and High School Geographies; Colburn's Mental Arithmetic; Thompson's Practical Arithmetic, and Emerson's Third Part; Bullions' English Grammar; Comstock's System of Elocution; Cutter's Anatomy, Physiology and Hygiene; Willard's History of the United States; and Willard's Universal History.

The general management of the affairs of the Schools devolves upon the Board of Education. These officers have the custody of all the City School property—contract with and employ all teachers—and perform such other acts as are designated in the City School Ordinance.

The Board of Education for 1857 and '58, is composed as follows:

Superintendent of Public Schools and President of the Board of Education, J. G. Lawton, Jr. *School Commissioners*, First Ward, H. J. Bidleman and P. W. S. Rayle; Second Ward, David Murry and G. L. Simmons; Third Ward, Samuel Cross and R. A. Pearis. *Secretary*, G. L. Simmons.

The following exhibit will show the location of each school, names of the teachers, and attendance during the second term of the present year:

From the above, we find there are 145 more children in the Second than in the First Ward, and 863 more in the Third than in the Second Ward; and 403 more in the Third than in both the First and Second. More than half the children in the City reside in the Third Ward.

SACRAMENTO VALLEY RAIL-ROAD.

The construction of this great enterprise was commenced in February, 1855, and was completed as far as Folsom, or Granite City, in February, 1856. The entire cost, we understand, was $1,100,000. From the amount of travel and freight, as shown by some of the Company's reports, it is undoubtedly very desirable stock. It is in contemplation to extend branches to different sections of the interior, which is warranted by the increasing amount of travel, etc. A project is on foot to run a branch along the foot hills of the Sierra Nevada Mountains, as far north as the Yuba River, and probably reaching the City of Marysville, although as yet nothing definite is known. The Company have four first-class locomotives in almost constant use; from which, taking into consideration the length of the road, (22½ miles,) some idea can be formed of the amount of business done. The travel and

freight of almost the entire mining country eastward and southward of Folsom, goes over this road, as the cars connect there with stage and freight lines to all parts of the Mines. The Road was built by Robinson, Seymour & Co., of New York. Present Officers are as follows:—J. P. Robinson, Superintendent; Howard Havens, Cashier; W. L. Perkins, Freight Agent; Geo. T. Bromley and N. Osgood, Conductors; S. P. Robbins, Watchman; B. F. Cole and C. A. Chapin, Engineers; John A. Carroll, Master Carpenter; G. H. Parker and Benj. Welch, Assistants; B. A. Woodworth, Master Machinist; W. B. Waldron, Assistant; W. S. Runyon, Baggage Master.

SACRAMENTO AND YOLO BRIDGE.

At 12 o'clock, on Friday, September 18th, 1857, the first pile was driven for this Bridge, quite a number of spectators being present. The Charter was granted by the Legislature of 1857, to Messrs. Geiger, Price & Gilliss. The Bridge promises to be everything that can be desired, and will no doubt be an ornament to the City, standing as a monument of the energy of her citizens. The eastern terminus is at the foot of Broad street, above the mouth of Sutter Lake.

The Bridge is eight hundred feet long, built on five piers, to be supported by six hundred piles, which will be at least twelve inches in diameter, and to be driven thirty feet to the firm, solid bed of the river. Tne piles will be cut off at low water mark, and are to be capped with two courses of heavy timbers, twelve inches thick, the same to be firmly bolted to the piles. On the top of the capping there will be heavy piers, framed and put together in the most substantial manner with strong ties, diagonal braces, etc. The top of the piers will be capped with timber, four feet from high-water mark, and the whole will be planked in, so as to prevent drift stuff from injuring the structure. These piers will be pointed, both up and down stream, so that logs or other drift stuff brought down by freshets cannot possibly lodge against the Bridge. The bottom of the piling is to be filled in with stones, the whole size of the pier, and ten feet all around on the bottom of the river. The Bridge will be one of "Leonard's Patent," in four spans of one hundred and thirty-five feet each. The walls will be about eighteen feet high from the piers; the roadway to be on the bottom and four feet above high water. The main roadway will be eighteen feet in the clear, on the outside of which, on either side, there will be footpaths each four feet wide; the main roadway and footpaths are to be surmounted with a neat, substantial railing.

The Bridge will have a draw, opening two spaces, each seventy-five feet in the clear. It, the draw, will be supported by a massive pier, fifty feet long and thirty feet wide in the centre. The draw will revolve by means of machinery, on an entirely new and original plan; it dispenses with all needless waste of time, as by this method so soon as the draw commences to revolve, the vessel or steamer can at once begin to pass through, and as soon as her stern is past the line of the bridge, the draw is closed and travel over it resumed. As the two ends of the draw are made to fit equally well at either side of the opening, but a half revolution of the draw is necessary to allow a steamer to pass through, which operation

need not occupy more than three or four minutes. The floor of the draw when closed will be level with that of the Bridge. Immediately above the draw will be placed the toll-house.

TELEGRAPH COMPANIES.

California State Telegraph Co. have lines extending from San Francisco to the four principal Cities in the State—Sacramento, Marysville, Stockton and San José. The Capital Stock is $300,000. Principal Office, San Francisco. Tariff: Sacramento and San Francisco, first ten words, $2; every additional five words, 75 cents. Sacramento to San José, first ten words, $1 50; additional five words, 50 cents. From Sacramento to Marysville or Stockton, first ten words, $1; additional five words, 40 cents.

The present Officers of the Company are—H. W. Carpentier, President; James Gamble, Superintendent; Theo. F. Moss, E. D. Keyes, C. Ferguson, C. H. S. Williams, Directors, San Francisco. J. C. Palmer, Treasurer; C. C. Butler, Sec'y.

Agent, Sacramento—John Leatch, "Latham's Building."

Alta California Telegraph Co.—This Company's lines communicate with all the principal interior Towns and Cities in the State. Operation commenced in the month of January, 1854. Present Capital is $220,000. Principal Office is in San Francisco. Present Officers are—President, D. W. Welty; Secretary, J. Lambert; Treasurer and Superintendent, J. M. McDonald, Sacramento; Directors: J. H. Carruthers, Martinez; P. A. McRae, Marysville; J. M. McDonald, Sacramento; J. Lambert, Sacramento.

Office, Latham's Building, 51 and 53 J street. J. W. Coleman, Operator.

CITY WATER WORKS.

Sacramento, through the energy and enterprise of her citizens, has been the first City in the State to erect Public Water Works. The building of these Works has done away in a measure with the necessity of having cisterns; although in the suburbs of the City, where the pipe has not been extended, cisterns are yet being constructed at the intersection of streets. Besides being a great public benefit, they are a source of no inconsiderable revenue to the City Treasury, as the Report of the Superintendent will show.

The entire building is occupied as offices of the City officials. On the upper floor is the Mayor's Office, Council Chamber, Recorder's Court, Sec'y of Common Council, Collector's Office, Assessors' Office, Surveyor's Office, and Superintendent of the Water Works Office, Jury Rooms, &c. On the lower floor is the Marshal's and Police Office, City Tapper's Room, Station House or City Prison. Separate from the main building is the Engine Room.

The Water Tanks, three in number, are placed on the top of the building, one of which is made of heavy boiler iron, and is some eight feet in depth, the other two are of wood, but are firmly braced with iron bolts and ties.

Some idea of the capacity of these tanks may be formed from the fact that the

daily consumption of Water is about 326,000 gallons. The number of Water takers is between twelve and thirteen hundred.

The Superintendent, Mr. Hansbrow, informs us that the annual receipts are between fifty and sixty thousand dollars, and that the expenditures last year were twenty thousand dollars; from which we are to conclude that the Works are a profitable as well as a very necessary enterprise.

Sacramentans certainly deserve much credit for the manner in which they have embellished and beautified their City. Few cities have had so much to contend with—the elements apparently combined to dishearten and discourage them, but evidences of their triumph are to be seen on every hand, and among those evidences none are more prominent than this safeguard against the disastrous conflagrations heretofore so frequent.

THE DAWSON HOUSE.

Among the many improvements in the City within the last year, none present a better appearance than the Dawson House, corner of Fourth and J streets. The dimensions of this elegant structure are as follows: Front on J street, forty feet; front on Fourth street, one hundred and sixty feet; in the rear on the alley it covers a space of eighty feet. The building is four stories high, and is surrounded by an elegant and spacious piazza. It contains two hundred Sleeping Rooms, neatly and comfortably arranged; has thirteen Parlors. The Dining Hall and Ladies' Ordinary are on the lower floor, as also the Bar Room, Office and Billiard Room. The corner is occupied by Messrs. Howard & Sanders as a Drug Store; the balance of the lower story is occupied as Barber Shops and Stores. The large basement story is occupied as a Lager Beer and Billiard Saloon. The building was erected at a cost of $65,000, exclusive of the lot, etc. Building Lot and Furniture cost about $125,000. Architect, Mr. D. Farquharson. Built under supervision of G. V. Dawson. Entrance to Hotel on Fourth street. The entire first story is built of California granite. The front windows are hung with Venitian blinds. The building is certainly an ornament to the City, and reflects credit upon the projector.

While mentioning some few of the latest improvements in this City, we should not omit that fine specimen of architecture, Ebner's Hotel, which has lately been built on K street, between Front and Second. The dimensions of the building are forty feet front on K, and extends back on the alley seventy-five feet; is three stories high, and is surmounted with a Dome or Cupola, which is reached by means of a winding staircase. From this Dome a splendid view can be obtained of the City and suburbs. The entire front is covered with mastic, in splendid imitation of freestone, and presents a beautiful appearance. The building was erected by Mr. Chas Ebner, at a cost of twenty or twenty-five thousand dollars. It contains only fifty rooms, but is luxuriously furnished. Mr. Eisen, Architect. J. P. Hackett, Carpenter Work. Mr. Farley, Brick Work.

On the corner of Fourth and J streets Mr. Janson is building a fine structure,

40 feet front on J by 160 feet on Fourth, iron front, which will add much to the appearance of that locality. The entire upper story is to be occupied by the Supreme Court and State Library. On the corner of Fifth and J, another handsome building is being erected by F. Tukey, Esq., which fronts 80 feet on J by 80 on Fifth. The present intention is, we understand, to build but two stories high. The estimated cost is between twenty and thirty thousand dollars. Many other improvements have been made within the last few months, but to enumerate them all would be a tax upon the patience of our readers. Enough is known of the steady improvement of Sacramento, that her prospects of becoming a great City is no longer a question of doubt. As to agricultural resources and advantages, and in point of commercial importance, she is the second City in the State, being as she is the centre of interior trade, and the market for some of the most productive Counties in California. Within the last year, she has added to her many improvements by the construction of a fine Wharf, extending along the river front nearly two blocks. The Wharf is built in such a manner that vessels can unload their cargoes at the lowest stage of water. This Wharf was built by Messrs. Horton & Hubbard, for the City, at a cost of about $10,000, and adds greatly to the appearance of Sacramento's front.

In connection with this, it would be well, perhaps, to give a sketch of the amount of Shipping to and from this Port. From the Report of the Harbor-master, we find that for the month ending September 30th, 1857, there were 32 schooners and 27 sloops arrived, with a tonnage of 2,600 tons. During the same period, there were four steamers running to San Francisco, 2 to Marysville, 2 to Colusi and Red Bluffs, and 1 to Stockton—making 68 trips, with a tonnage of 15,866 tons. A recapitulation shows 59 sail vessels and 9 steamers—Total tonnage, 18,466 tons. From the same Report we learn that the dues received from this source, same period, were from steamers, $604; hulks, $805; sail vessels, $260 05; track and other dues, $87 25; total, $1,756 30. The month of October will foot up a much larger sum.

COUNTY STATISTICS.

From the report of the late County Assessor of Sacramento, we glean the following valuable statistics:—Land cultivated, 47,305 acres; wheat, 10,969 acres, producing 213,248 bushels; barley, 17,587 acres, 420,046 bushels; oats, 1,147 acres, 3,210 bushels; rye, 90 acres, 1,925 bushels; corn, 166 acres, 5,466 bushels; peas, 32 acres, 2,220 bushels; beans, 37 acres, 1,420 bushels; potatoes, 440 acres, 82,931 bushels; sweet potatoes, 228 acres, 54,605 bushels; onions, 95 acres, 16,955 bushels; hay, 11,771 acres, 16,226 tons; broom corn, 150 acres, 118,700 pounds; butter, 301,952 pounds; cheese, 79,000 pounds; eggs, 123,892 dozen; wool, 14,020 pounds. Total value of water-melons sold, $22,687. Total value of vegetables sold, $218,371.

The above statistics are as correct as can be made, by an officer whose duty it is to assess the property of persons; yet, it is well known that in many cases, where it can be avoided, the whole amounts are not given in. Knowing such to be the case, we can safely estimate and put down the amount as being one-third greater than shown as above.

SMITH'S POMOLOGICAL AND FLORAL GARDENS.

These splendid Gardens are situated two and one-half miles east of Sacramento, on the American River, and is a great place of resort for the denizens of the City. Located as they are, so near and convenient to the City, they would naturally be "the place" for pleasure and recreation. Mr. Smith has been engaged for the last six or seven years, in beautifying his place, so as to make it a place of public resort: how well he has succeeded, can be ascertained by interrogating any one of his thousands of visitors. The ladies, particularly, can give evidence of the many beautiful boquets, of delicious fruits, of the pleasant walks, etc., and of the liberal manner in which all visitors are entertained at this delightful place. Aside from the many different species of flowers, shrubs, etc., Mr. Smith has the most extensive collection of fruit trees, vines, etc., in the State: For instance, he has 3,000 peach trees, of seventy-five varieties; strawbery vines, of twenty varieties; 10,500 grape vines, of sixty varieties; and soon with the other fruit trees and vines, with varieties in proportion to the few above mentioned. In the year 1856, Mr. Smith sold from his peach trees, $19,178 worth of peaches; from strawberry vines, he sold $2,294 worth of strawberries; from his nursery, $5,097 worth of trees; for flowers and plants, (of which he has 700 different species,) he received $2,579; and from his garden, he sold $3,027 worth of seeds—making the amount of $32,175 for one season.

SACRAMENTO FISHERIES.

In Sacramento, and neighborhood, are many extensive fishing and fish packing establishments. This business, as it is now conducted, yields a handsome income to those engaged in it. The Sacramento River is the greatest fishing ground on the Pacific coast, and the salmon caught here are regularly exported to the East. In carrying on this lucrative business, a large amount of capital is invested, as it gives employment to a great number of men, and requires quite a number of boats, nets, seines, etc. The apparatus is mostly made here, although to supply the demand, many seines and nets are ordered from Eastern cities. The boats mostly used, are the celebrated Whitehall boats of New York, which combine speed with durability. The "grounds" extend from North to South a distance of about fifty miles. The most advantageous seasons for fishing, are the Spring and Fall. Last season, we are informed, about 10,000 barrels were caught: a barrel generally contains about 150 pounds, which makes the enormous number of 1,500,000 pounds in one season, which brings on an average 3 cents per pound, making 45 or $50,000 as the result of the fishermen's labor. Among the principal operators, are George Cooper, William Frisbie and James Griffin. Mr. Cooper was the first to commence packing for the market, and was engaged in the business as early as the year 1851; since which date, he has been steadily increasing and adding improvements to his business, and is now "well to do" in the world, with ample capital at his command. He intends to enlarge considerably upon his operations of last year. This season, Mr. C. caught and prepared over 500,000 pounds of fish for market. He is also making preparations to cure some 3 or 4,000 pounds of California pork, which, by the way, is quite a rarity in this State. San Francisco is supplied with salmon, and other fish, from these fisheries, and as high as 1,000 barrels at one shipment, have been sent to the Eastern States.

Among the many fishing boats that dot the surface of the Sacramento, the flat-bottomed scow of "John Chinaman" is prominent; being naturally great fishermen, they have taken to the water, and in most instances are quite successful, as any one can testify who visits their habitations.

Hebrew Benevolent Association.

Having for its object the relief of the sick and destitute, was organized as early as the year 1859, since which time they have increased in strength and means; particularly were their efforts appreciated at the time of the disastrous conflagration of November, 1852. Not one of the members have, as yet, received any personal relief or benefit from the institution; but their favors have mostly been dispensed among entire strangers. The association has at this time some seventy members. Present officers are—Simon Wormser, President; Louis Shawl, Vice President; Leopold Korn, Secretary; A. Greenebaum, Treasurer; Julius Lyons, A. Lippman, L. Lehrmann, L. Oppenheim, Trustees. Place of meeting, Jewish Synagogue, Fifth street, between N and O.

Sacramento Mutual Benevolent Association.

A semi-annual meeting of this Association was held on Thursday evening, November 5th, 1857, at which the following officers were elected: P. McManus, President; P. H. Ray, Vice President; James Rowan, Secretary; Joseph Breen, Assistant Secretary; John Ryan, Treasurer. P. J. Devine was also elected Trustee. The Association was organized on the 27th May, 1855, and incorporated on the 10th of March, 1857. It now numbers forty members, and since its organization, besides administering to the wants of its members in sickness, etc., its fund has increased naturally to the sum of $581. Great discrimination has heretofore been made in the proposal of candidates and the admission of parties to membership. Should the same be adhered to, the institution can but remain in an equally flourishing condition—in fact must advance steadily in the augmentation of its pecuniary resources.

PIONEER ASSOCIATION.

This Association was organized in January, 1854; and as the name indicates, it is composed of the Pioneers of the City, or those persons who arrived here previous to, or during the year of 1849. Since its organization it has steadily increased in importance, and has now a splendid Library, containing most of the standard works of the age. The Reading Room is supplied with all the popular newspapers of the day. Their elegant Hall is comfortably arranged, and has all the conveniences requisite. No person is eligible to membership, but those who arrived in California during the year '49, or previous. The Association is composed

of our most prominent and influential citizens, both mercantile and professional. Their annual celebration and election, is held on the 9th of September of each year. Present officers are as follows:—Dr. John F. Morse, President; J. H. Nevett, 1st Vice President; James Queen, 2d Vice President; S. B. Robbins, Recording Secretary; N. A. H. Ball, Corresponding Secretary; Edgar Mills, Treasurer; G. J. Phelan, J. H. Culver, Jas. Anthony, P. B. Cornwall, J. H. Carroll, John G. Hyer, and A. G. Richardson, Board of Directors. Hall, Nos. 20 and 22 J Street, South side.

SACRAMENTO LIBRARY ASSOCIATION.

On the 8th day of October, 1857, a number of the most prominent mercantile and professional men of this city, met at Pioneer Hall, for the purpose of forming a Literary and Scientific Association, somewhat similar to the Mercantile Library Association of San Francisco. From the enthusiasm manifested on the occasion, we have every reason to believe that they will succeed, even beyond their highest anticipations. The institution is incorporated by the name of the Sacramento Library Association. Its objects are, the establishment of a Library and Reading Room, the collection of Scientific Cabinets, Works of Art, Philosophical Apparatus, and other literary and scientific purposes. The capital stock is $25,000, (which may be increased at the direction of the stockholders,) which amount is to be applied to the purchase of books, and other literary and scientific objects; the establishment of a Reading Room; and finally, for the purchase of a lot, and the erection of a building thereon, for the uses of this Association. The shares of stock are $25, and are open to all purchasers.

From Art. 3, of the Constitution of this Association, we take the following:

SECTION 1. Any person may become an active member by the payment of five dollars as an initiation fee, and the further payment, quarterly, of the sum of two dollars and fifty cents.

SECTION 2. Stockholders may become active members by the regular payment of the quarterly dues only.

SECTION 3. Any person paying one hundred dollars at any one time, shall become a life member, with the right to claim and hold two shares of stock, with all the privileges of a stockholder and active member, without assessment or the payment of quarterly dues.

The officers of the Association are as follows:—President, Vice President, five Trustees, Treasurer, Recording and Corresponding Secretaries, and Librarian. The seven first named constitute the Board of Directors. The meetings are held on the first Mondays in January, April, July, and October—the last named being termed the Annual Meeting, at which meeting the Board make report of the financial and literary condition of the Association.

At a meeting held on Wednesday, October 21st, 1857, the following officers were elected:—President, Joseph W. Winans; Vice President, L. A. Booth; Trustees, Charles Crocker, J. G. Hyer, Dr. Frey, Leland Stanford, and John Little; Recording Secretary, S. E. Herrick; Corresponding Secretary, James Langley; Librarian, S. B. Freeland; Treasurer, Edgar Mills. Their present place of meeting is Pioneer Hall. From the report of the committee appointed to solicit subscriptions, we learn that they meet with great encouragement. From appearances, it is evident that the Library Association is to be one of the permanent institutions of this City. That the projectors may succeed, is the earnest wish of all respectable citizens.

MUSICAL SOCIETIES.

There are two Musical Societies, at the present time, in Sacramento; in both of which is to be found some of the best musical talent in the State. These Societies have been organized, for the improvement of their members, in the science of vocal music. The object is certainly commendable, and from the flourishing condition in which they now are, we are led to believe that they receive that encouragement of which they are so deserving. The Philharmonic was organized in October, 1855, and consisted of forty members, male and female; they have given several public concerts, all of which were numerously attended, showing plainly the appreciation in which they are held. Candidates for membership are required to have some knowledge of, and be able to read music with ease, on entering. The initiation fee is five dollars. Assessments are five dollars, monthly. Honorary members are required to pay a fee of ten dollars, which entitles them to attend rehearsals, and receive two tickets to each concert. The Society's elections are held semi-annually. Present officers are as follows:—Musical Director, N. A. H. Ball; Pianist, Prof. Charles Wolleb; Librarian, G. B. Merriam; Business Directors, W. F. Benchley, H. F. Thompson, and G. W. Wallace.

SACRAMENTO MUSICAL SOCIETY—Having the same object in view as the Philharmonic, was organized in the month of March, 1856, and consists of some of the most respectable and influential citizens of Sacramento, who, awake to the importance of so worthy an institution, have lent their aid, pecuniarily and otherwise, to perfect its arrangements and organization, so that it is now one of the most permanent and well regulated Societies in the State. The election of officers takes place semi-annually. Members are required to be conversant with, and to be able to read music fluently. Honorary members are entitled to the same privileges as in the Philharmonic. Meetings of the Society are held weekly, at the First Baptist Church, on Fourth Street. Present officers are: President, E. B. Crocker; Secretary, W. T. Riley; Treasurer, C. D. Wingate; Musical Director and Leader, Thomas C. Stephens; Pianist, L. A. Goodrich; Board of Directors, Mr. Crocker, Mr. Riley, Mr. Goodrich, Mr. Tritz, and Mr. Wingate.

UNION BRASS BAND.—This splendid Band of Musicians was organized on the 7th of July, 1857, and J. R. Parsons elected Leader; G. Hesse, Conductor. Although but some few months organized, they are rapidly gaining favor. Their performances will compare favorably with the best Bands in the United States. They number fourteen pieces, and have an entire new uniform. The members are: J. R. Parsons, G. Hesse, Mr. Wetterman, Mr. Zimmerman, Lotthammer, Zwicker, Wyatt, Dierson, Wassberg, Quinn, Brown, Plummer, Estabrook, and Waterman. Their Hall is over Zwicker's Saloon, Third bet J and K.

American Brass Band.—This is the oldest of the two Bands of the City, having been organized under its present name in the month of April, 1857, since which time it has been successfully conducted. They number some fourteen or fifteen pieces. In this Band, can be found some of the best musicians in the State. Present officers are: Leader, Chris. Smith; Conductor, Joseph Smith; Secretary and Treasurer, John N. Turpin. Present members are: Carl York, J. P. Dennison, G. W. Booth, Thos. W. White, John N. Turpin, Christopher Smith, Joseph Smith, Alex Heyman, Arnold Heyman, George Fryer.

MILITARY COMPANIES.

In this city at the present time, are two permanently organized companies—Sutter Rifles and Independent City Guard. Some time since, two others were organized—the "Cadets" and the "Young Men's Pioneer Guard"—but as we have not received returns from either of these companies, we are unable to give their history.

Sutter Rifles.—This corps of citizen soldiery have the reputation of being one of the best drilled military companies in the State. At several different times, they have distinguished themselves for their perfect knowledge of the rifle drill, aside from their proficiency in military tactics. Their liberality on all public occasions, to invited guests and others, is proverbial. At different times they have extended invitations to the military of San Francisco, more particularly to the gallant "Marions," towards whom they have always entertained the most friendly feelings; and in return, have accepted and partaken of the same hospitalities from them. It has been customary with the "Marions" and "Sutters," to have annual target excursions—the last of which took place at Benicia, on the Fourth of July, 1857. They also have an annual excursion of their own company, for target practice. The company was organized June 27th, 1852, by electing B. D. Fry, Captain. June 6th, 1853, B. D. Fry was re-elected Captain; M. D. Corse, 1st Lieutenant; John Q. Brown, 2d do.; Wake Brierly, 3d do. March 7th, 1856—E. E. Eyre, Lieutenant Commanding; J. C. Keenan, 3d Lieutenant; Frank Denver, Orderly Sergeant; J. H. Virgo, 2d do.; A. T. Sloper, 3d do.; J. H. Culver, 4th do.; R. S. Lockett, 1st Corporal; A. A. Porter. 2d do.; E. S. Bennett, 3d do.; John E. Doyle, 4th do.; H. L. Foushee, Treasurer; S. J. Cassin, Secretary.

Present Officers.—E. E. Eyre, Captain; Jos. H. Virgo, 1st Lieutenant; Chas. J. Torbett, 2d do.; H. R. Covey, 3d do.; Frank Denver, O. S.; S. J. Cassin, Secretary; Robt. Hamilton, Treasurer; John Isaacs, Armorer. For other officers, no returns. Sixty men.

Company meets for regular drill every Friday evening, at Armory Hall, Second street, between K and L.

Independent City Guard—Is a company of Infantry, (muskets.) Was organized under the name of "Sacramento Guard," in the month of August, 1855. This efficient company of soldiery, although not long since organized, are capable of

going through the manual exercise with great accuracy. Their gentlemanly and soldier-like appearance, is the subject of general remark. Their splendid uniforms, and towering shakos, glistening bayonets, etc., show off with striking effect; and on parade, they are the "observed of all observers." Their last election for officers took place in August, 1857, when L. L. Baker was elected Captain, but resigned in September following. The present officers are as follows:—J. Howell, Lieutenant Commanding; A. D. Starr, 2d Lieutenant; L. Powers, Jr., 3d do.; J. P. Hackett, 1st Sergeant; I. Lohmann, 2d do.; Fred. A. Birge, 3d do.; H. A. Burnett, 4th do.; Frank F. Frost, Quartermaster Sergeant; I. Lohmann, Treasurer; H. S. Homans, Clerk. 50 members.

Monthly meetings are held at their Armory, Pioneer Hall, Nos. 20 and 22 J street.

THE FIRE DEPARTMENT.

The Fire Department of Sacramento is one of the most efficient in the State. It is composed of some of the ablest, most respectable, and influential citizens in the community. The promptitude with which they respond to the call of duty—the hospitable manner in which they entertain their friends, and their deportment generally, is a theme of praise throughout the length and breadth of the land. Their efforts to maintain this enviable reputation, have thus far proved eminently successful; and it is to be hoped, that in no future time, shall anything occur to destroy that friendly feeling, which has so long existed between them. In their endeavors to perfect the institution, they have been, and are now liberally seconded by the Common Council, and citizens generally.

At present, it seems, two of the companies are but poorly supplied with apparatus, but we learn that new machines are being built to their express order and liking, and will soon grace their halls.

The present officers of the Department are as follows:—Jos. S. Friend, Chief Engineer; A. C. Bidwell, First Assistant; P. Holland, Second Assistant; Andrew Aitken, President Board of Delegates; C. J. Torbett, Treasurer; Chas. D. Hossack, Secretary; term of office one year. W. C. Felch and James Coggins, Trustees; term of office, three years.

Salaries.—Chief Engineer, $2,000 per year; First Assistant, $600 per year; Second Assistant, $600 per year; Secretary, $50 per month. Election in August.

Board of Delegates.—Confidence, No. 1—Leander Culver and J. H. Parnell; Protection, No. 2—A. Aitken, (Pres't of B'd) and J. H. Houseman; Sacramento, No. 3—J. J. Smith and Samuel Aspell; Eureka, No. 4—A. Konneman and E. P. Hoyt; Knickerbocker, No. 5—J. C. Keenan and J. Billings; Young America, No. 6—S. Marshall and A. C. Sweetzer; Hook and Ladder, No. 1—George Rowland and W. H. Watson; Hook and Ladder, No. 2—H. H. Cummings and G. H. Swinerton; Neptune Hose—Chas. Nougues and J. McQuillan.

The Fire Department, at present, consists of six Engine Companies, two Hook and Ladder Companies, and one Hose Company.

CONFIDENCE ENGINE Co., No. 1—(*Roosters.*) Motto—"Douse the Glim." House on Third street, between I and J. 65 members.

Officers.—William B. Hunt, Foreman; George H. Brickman, 1st Assistant; George Langville, (Shad) 2d Assistant; Wm. Riker, Recording Secretary; Dan'l J. Thomas, Treasurer; James Lansing, Financial Secretary.

This company was organized March 5th, 1851. They now run with "Our Gal," the oldest machine in the city, but they have ordered from Agnew, of Philadelphia, a splendid machine and hose carriage, which is to cost them $4,000. They expect it to be "Boss" of the Pacific Coast. The elections of this company are held twice a year—November and May.

PROTECTION ENGINE Co., No. 2—(*Honey Bees.*) Motto—"Duty, tho' in Peril." House on Eighth street, between J and K.

Officers.—John H. Houseman, Foreman; Andrew Aitkin, 1st Assistant; Mat Reid, 2d Assistant; Jerome Madden, Secretary; Nat Boyce, Treasurer; N. G. Millman, Financial Secretary.

Company organized March, 22d, 1851; engine built by Smith, of New York; since its arrival, have had large cylinders put in, and extension brakes, which additions have improved her working materially, and have made her a first-class engine. They can put fifty-six men on the brakes. When don't they know how to "break down?" The elections are held twice a year, October and April.

SACRAMENTO ENGINE Co., No. 3—(*Tigers.*) Motto—"Always Ready." House on Second street, between K and L. 65 members.

Officers.—J. D. Treat, Foreman; D. S. Hayden, 1st Assistant; H. Burnham, 2d Assistant; John Barencamp, Treasurer; S. B. Robbins, Secretary.

Company organized March 27th, 1851. Engine made by Hunneman & Co., of Boston, in '54; has 6¾ inch cylinders, 15 inch stroke. The engine formerly used by this company, is now in use by Young America, 6. Elections, twice a year, September and March.

EUREKA ENGINE Co., No. 4—(*Grizzlies.*) House on Fifth street, between J and K. 30 members.

Officers.—W. C. Felch, Foreman; J. C. Halley, 1st Assistant; A. Koneman, 2d Assistant; E. P. Hoyt, Secretary; H. P. Osborn, Treasurer; C. G. Clapp, Financial Secretary.

Company organized in August, 1853. Present engine is second class, and was built by Smith, of New York; is considered the best second class engine in the State. This company, though small, is gradually increasing in point of strength, and can now do first-rate work—worthy of their patron "Bruin." Elections are held in January and July.

KNICKERBOCKER ENGINE Co., No. 5—(*Foxes.*) Motto—"We Strive to Save." House on Fourth street, between K and L. 62 members.

Present Officers.—John C. Keenan, Foreman; George Holland, 1st Assistant; D. McLaughlin, 2d Assistant; E. Sherwood, Recording Secretary; S. J. Tillman, Financial Secretary; Owen Casey, Treasurer.

Elections are held annually, in January. This efficient company was organized in the month of July, 1854, and was admitted into the Department August following. They now run with a splendid machine, built by Button, of New York; hose carriage, by the same builder, and have 600 feet of extra double-riveted hose. Their Hall and Library, are not yet finished, but will be handsomely furnished. Engine-room has lockers, for the use of members, ranged around the sides and end, which are painted white, the mouldings being gilt. In the centre of each locker door, is a gilt shield, with the number of each member as it is on the roll. Their sitting room is tastefully decorated with pictures, etc., prominent among which, is the likeness, life size, of the company's favorite, "Knick."

YOUNG AMERICA, No. 6.—House on J street, between Tenth and Eleventh. 40 members.

Officers.—Sylvester Marshall, Foreman; George Phifer, 1st Assistant; Anson Perry, 2d Assistant; C. M. Folger, Secretary; E. Kimball, Treasurer; J. Lyons, Financial Secretary.

This company, but recently organized, and are using No. Three's old machine, by Smith, of New York, but they have ordered from Rodgers, of Baltimore, a first class engine, a two-wheeled hose carriage, hose, etc., which will arrive some time in the Spring, and will cost them about $4,200. With their "little old machine," (and they think a great deal of her,) they can do tremendous work.

MUTUAL HOOK AND LADDER—(*Silk Stockings.*) Motto—"On Hand." House on Third street, between I and J. 28 members.

Officers.—Wm. G. English, President; J. H. Nevett, Vice President; George Rowland, Foreman; Chas. D. Hossack, 1st Assistant; C. Noonan, 2d Assistant; N. A. H. Ball, Secretary; E. Kenyon, Treasurer.

Company was organized February 5th, 1850, and is the oldest company in the State. In the youthful days of Sacramento, before the introduction of engines, this company was the means of saving much property, as will appear from the reports of the different Engineers. The company do not pride themselves on the looks of their Truck, and say it is a huge heavy machine, and "mighty hard to go." Their elections are held twice a year—March and November.

ALERT HOOK AND LADDER Co., No. 2.—Motto—"Ever on the Alert." House on Eighth street, between J and K. 30 members.

Officers.—A. H. Cummings, Foreman; W. J. Drummond, 1st Assistant; Moses Goodkind, 2d Assistant; Wm. H. Blauvelt, Secretary; E. B. Mott, Treasurer.

This company was organized in September, 1852. They have an elegant truck and apparatus, and is composed of able and active firemen.

NEPTUNE HOSE COMPANY, No. 1.—This useful and efficient company, was organized October 6th, 1856, and was admitted into the Department in February, 1857. Purchased their hose carriage of Vigilant Co., No. 9, of San Francisco. They have been particularly unfortunate in their selection of places to house their carriage, having been burnt out twice. They have not, as yet, been provided with a permanently located house. It has 17 members,

Present Officers.—John Talbot, Foreman; John Foley, Assistant; J. B. McQuillan, Secretary; Alex. Badlam, Jr., Treasurer, and ex-officio Trustee.

Sacramento Police Department.

The Officers and Privates of the Police Department are elected by the Common Council, every three months. They are under the direction of the Mayor of the City, but are subject to be removed at any time by the Council: Provided, however, that the Mayor may, at discretion, or in cases of emergency, appoint Special Policemen, and shall make report of the same to the Common Council.

Regulations.—Seven men are detailed to go on street duty, from 9 o'clock A. M. until 12 o'clock at night; seven more go on at 12 o'clock at night, and remain until sunrise—thus making one watch serve fifteen hours, and the other six. They are changed alternate weeks. The Specials are (when necessity requires) detailed on special duty by the Marshal, or Captain, such as serving warrants, or relieving the regulars, when they are required to be absent from the City.

Local Watchman.—There is a force of seven Private Watchmen employed to guard stores and other property at night, who are paid by those citizens whose interest it subserves. These Watchmen are sworn in by the City Recorder, and are not recognized, or allowed to wear the "star," unless they are so sworn in.

Patent Galvanic Cement
FOR
ROOFING.
IS
FIRE AND WATER PROOF,
AND IS
MORE DURABLE
THAN AND OTHER KIND OF ROOFING MATERIAL YET DISCOVERED.

Roofs put on with this Cement, are better adapted to this climate than any Tin or Zinc Roof ever made. With durability it combines cheapness.

☞ The Subscribers, having purchased the Patent Right for this State, are now fully prepared to execute all orders with neatness and despatch. They can be found at their office at the

Zander's Hydropathic
INSTITUTE,
CORNER of K and FIFTH STREETS
SACRAMENTO.

Having fitted up in a thorough manner the large Building on the South-West corner of K and Fifth Streets, it is now thrown open to the Public as a

WATER CURE ESTABLISHMENT,

Where all who desire Hydropathic Treatment, can be scientifically treated for any Disease. This Institution is intended as a retreat for Invalids. The Building is pleasantly situated; Rooms are large and airy, and will accommodate a large number of patients—with or without Board. Diseases are treated on strictly hygienic principles, including PHYSIOLOGICAL DIET. Patients can be attended to by one of their own sex. The WATER CURE is particularly successful in the treatment of

Acute and Chronic Rheumatism, Gout, Incipient Stages of Consumption, Nervous Diseases, Dyspepsia & Indigestion, with all its Symptoms, as **Constipation, Head Aches, Liver Complaint, Jaundice, &c., Fevers, Scrofula and Spinal Complaints, Female Diseases, Tumors, Ulcers, Cancers, etc. etc.**

And Diseases arising from the excessive use of Opium, Tobacco, etc.

☞ In connection with the Institution is an

ELECTRO-CHEMICAL BATH,

By the proper application of which, ALL DISEASES arising from the use of METALLIC DRUGS and MINERAL MEDICINES, Lead, Arsenic, Mercury, in all their forms,—such as Calomel, Blue Mass, etc. —are speedily expelled; and the Maladies induced by their presence— as Rheumatism, Palsy, Neuralgia, St. Vitus Dance, Ulcers, &c., are rapidly cured. TERMS MODERATE.

T. P. ZANDER,
Water Cure Practitioner.
